ISUZU N-SERIES GAS**

# THE TRUCKS YOU TRUST FOR THE WORK YOU DO

Today, more than ever, you need a truck that's dependable and durable ... efficient and capable ... designed for minimal downtime and maximum productivity ... a truck you can rely on to get the job done.

Whether you manage a large fleet or are a single owner-operator, a 2025 Isuzu N-Series gas truck is your best choice for your next truck. Here's why.

**A Wide Range of Choices:** What will it be? Standard Cab or Crew Cab ... wheelbases from 109 to 176 inches ... GVWRs from 12,000 to 19,500 pounds? Perhaps one of our brand-new Class 5 NQR or NRR gas-powered models? The choice is yours.

**Expertise:** A predecessor company of what is now known as Isuzu Motors Limited produced its first truck in 1922. Over a century later, Isuzu Motors Limited is one of the most experienced truck builders in the world.

**Durability:** Every Isuzu N-Series gas engine has a design life of 200,000 miles.

**Productivity:** The low cab forward design of Isuzu trucks provides more cargo space within a given overall length plus best-in-class maneuverability. That means drivers can reach tighter places in less time. And the Isuzu Hexapod cab maximizes interior space and optimizes comfort.

**Low Cost of Ownership:** Isuzu's available Priority Service Maintenance Program allows you to pay in advance for your maintenance needs—allowing you to budget your transportation costs up front while keeping your truck in top condition

**Peace of Mind:** Isuzu trucks are backed with warranties that demonstrate our belief in our product, and our extended warranties can help you protect your investment for up to five years or 150,000 miles, depending on model.

Isuzu has been the best-selling low-cab-forward truck in America every year since 1986. We invite you to find out for yourself what has inspired such loyalty—and why Isuzu trucks will be the trucks you trust for the work you do.

# HEAD OF THE CLASS(ES)

Do you need the convenience of a gasoline engine together with the capability of a Class 5 truck? Look no further.

**Class 5 NQR and NRR:** The NQR (17,950-lbs. GVWR) and its even more robust big brother, the NRR (19,500-lbs. GVWR), are available in both Standard Cab (132.5- to 176-inch wheelbases) and Crew Cab (150- or 176-inch wheelbases) models.

In all of these configurations, moving the power from the engine to the wheels is the job of the standard Allison 1000 6-speed automatic transmission. This transmission is part of Allison's Rugged Duty Series™—perfect for the demands of a Class 5 truck.

But the Class 5 NQR and NRR gas models are just part of the gasoline-powered Isuzu N-Series story for 2025.

**Class 3 NPR and Class 4 NPR-HD:** If you're looking for a truck with a gasoline engine but don't need the heavy hauling ability of our new Class 5 models, consider the Class 3 NPR (12,000-lb. GVWR) and the Class 4 NPR-HD (14,500-lb. GVWR). Both offer:

- Standard and Crew Cab models
- Four wheelbases for Standard Cab models (109 to 176 inches) to accommodate bodies from 10 to 20 feet in length
- Two wheelbases for Crew Cab models (150 and 176 inches) for 12- to 16-foot bodies
- The proven Hydra-Matic 6L90 six-speed automatic transmission

# THE ENGINE THAT COULD

All of Isuzu's N-Series gas trucks are powered by a 6.6-liter V8 that has been engineered to give you the best of all worlds:

- **Clean:** Meets published Federal emission standards through the 2026 model year
- **Powerful:** Generates an impressive 350 horsepower and 425 lbs.-ft. of torque for great throttle response even with full loads
- **Durable:** Cast-iron block specifically designed for heavy-duty use
- **Efficient:** Aluminum head design incorporates direct injection, variable valve timing, and an air intake humidity sensor, making this powerplant a fuel sipper, not a fuel gulper

The first gasoline-powered N-Series trucks were introduced in 1994. The last 30 years have been a time of continued improvement, leading to the 2025 N-Series gas trucks.

# N-SERIES GAS HIGHLIGHTS

## SPACIOUS CAB

Isuzu trucks offer two cab choices, seating for three or seven. Both cabs are built with the driver and passenger in mind. The most notable feature of the cab is the forward visibility. The large windshield and low-cab-forward design give drivers approximately 16 more feet of visibility in front of the cab compared to a conventional-cab truck. Vertical A-pillars located at the front corners of the cab provide an expanded peripheral view.

## IN-FRAME FUEL TANK

The 38.6-gallon in-frame fuel tank is conveniently placed between the rear frame rails. This rearward position keeps the tank free from interfering with body mounts and doesn't clutter the frame rails. The larger tank also increases range to keep refueling stops to a minimum.

## BRAKES

A four-wheel-disc braking system enhances braking performance while improving pedal feel. This braking system utilizes a vacuum + power assist and an anti-lock braking system (ABS).

## LED LIGHTS

LED headlamps and daytime running lights improve safety and styling. With brighter illumination, drivers have better visibility in nighttime conditions and their trucks are more easily visible to pedestrians and oncoming traffic.

## 6.6L V8 GAS ENGINE

All gas-powered N-Series trucks are equipped with an advanced 6.6-liter V8 gasoline engine. The engine produces: 350-hp and 425-lb-ft. torque. This advanced engine is powerful, efficient, and most of all, durable.

## INTERIOR

The interior is enhanced with a two-tone gray interior trim, and the seats are covered with a gray and blue cross-pattern tricot fabric that improves the look and feel while being durable for the daily grind.

## TRANSMISSION

Every gas-powered NPR and NPR-HD are equipped with a 8-speed automatic transmission. This Hydra-Matic transmission includes a lock-up torque converter and two overdrive gears. Every gas-powered Isuzu NQR and NRR are equipped with an Allison 1000 Rugged Duty Series™ (RDS) six-speed double-overdrive transmission.

# ACCESSORIES

**POWER / HEATED MIRRORS**

Heated flat and convex mirrors with or without dual remote controls. Heated mirrors prevent fogging and ice collection with a quick push of a cab switch. For added convenience, available remote controls allow the driver to quickly adjust the angle of the mirrors.

**AIR DEFLECTOR**

To help maximize fuel efficiency, the custom-designed Isuzu air deflector directs air over the top and around the sides of the truck body to reduce drag.

**CHROME GRILLE**

Chrome-accented grille enhances styling.

**HIGH-VISIBILITY SEATBELTS**

High-visibility orange seatbelts provide quick visual verification that seat belts are being worn to conform with safety regulations. (Driver and right front passenger seats only.)

**FIRE EXTINGUISHER & REFLECTOR KIT**

Meets DOT specifications for Regulation 393.5. Provides additional driver safety. Custom engineered box fits specifically in the dedicated rear cargo organizer.

**BACK-UP ALARM**

Alarm sounds when the vehicle is placed in reverse. Audible warning alerts any nearby people that the vehicle is backing up.

**MOBILEYE®**

This passive driver-assistance system provides alerts and warnings for enhanced safety. The system incorporates Forward Collision Warning, Pedestrian Collision Warning, Lane Departure Warning, and Headway Monitoring and Warning.

**SUSPENSION SEAT**

The adjustable suspension seat is designed to increase driver comfort and help reduce fatigue by dampening the impact of rough road surfaces. Not available on Crew Cab. (High-visibility seat belt sold separately.)

**SEAT COVERS**

Designed and tailored for a custom fit, these seat covers help reduce seat wear and tear to protect your investment while enhancing the look and feel of the cabin. Available on Standard and Crew Cab models.

**AGM BATTERY**

AGM 825 CCA – Absorbed Glass Mat Battery provides a sealed, maintenance-free battery solution.

**BLOCK HEATER & RECEPTACLE**

Warms engine coolant for more efficient cold engine start up. Reduces the need for prolonged engine warm-up.

## Other Optional Equipment:

- Spare Keys (2 additional keys)
- 102-in. Side Mirror Bracket
- Front Fascia Protector
- Speed Limiting to 65 mph

## TOUCHSCREEN AUDIO SYSTEM

The Alpine iLX-407 is equipped with a convenient touchscreen display and provides 200 watts of sound. This versatile system works with Apple CarPlay® and Android Auto™ which give you access to a number of smartphone apps including navigation. It is also equipped with built-in Bluetooth®, SiriusXM connectivity (antennae and subscription required), an HDMI input, an HD Radio™ tuner, and more. A USB port and AUX input are also included.

A backup camera is also available with the system. When ordering the audio system, select this upgrade to enhance your driving experience and safety.

# THE SUPPORT YOU DESERVE FOR THE TRUCKS YOU TRUST

Call (866) 441-9659 – 24/7/365 – It is as simple as that when you're in need. Roadside Assistance is standard on all new Isuzu trucks. It covers tows, jump starts, lock outs, and fueling (owner is responsible for cost of fuel). Please see an authorized Isuzu dealer for details.

Specifically designed replacement parts developed for Isuzu trucks are approved for all warranty repairs and carry a one-year/unlimited-mile warranty. See an Isuzu dealer for warranty details.

Preventive maintenance increases your operating efficiency and maximizes your fuel economy. This comprehensive program protects you against increasing labor and parts costs for up to five years. PSMP also guarantees you "Priority" treatment during your service visits and when roadside assistance is needed. And, any unused portion of your PSMP can be rolled into your next purchase, transferred to the truck's next owner, or refunded to you.

Isuzu FleetValue Parts are priced to compete with aftermarket parts—but have been engineered to meet Isuzu's stringent specifications and exacting standards for quality, performance, safety, and reliability. And they carry a one-year, unlimited-mile warranty.

Isuzu Finance of America offers exclusive programs, like the Isuzu iLease, through authorized Isuzu dealers nationwide. The iLease is by far the most cost-effective option for qualifying customers, allowing them to take advantage of low monthly payments. Ask your Isuzu dealer for more information on Isuzu Finance offerings that will best fit your business needs!
